1) Around 8 weeks of age, the breeder will have the litter structure and temperament tested. After testing, breeder will offer specific puppy or a choice of puppies to depositor/purchaser. Order of deposits may be a consideration of puppy placement, however other considerations, such as temperament, structure, drive, etc., will be given much higher priority. Show/Breed, Performance and/or Partnership/co-own families will also be given higher priority as fewer pups will qualify for our or your program (we are picky).

2) The puppy must be purchased and picked up by 8 weeks, unless other arrangements are made. If full payment is not received or arrangements made when the puppy is 8 weeks, the pup will be considered available and holding fee will be forfeited unless breeder agrees to hold longer. If breeder chooses to return holding fee, breeder is released from all obligations to purchaser. Fee can be carried over to another litter in the future up to 2 years. Balance is cash or cashier's check!

3) The purchaser assumes all expenses of receiving the puppy (crate, shipping, etc.) Purchaser is welcome to come pick up the puppy or the breeder may meet with the puppy with possible fuel expense added. Other arrangements may be available through 74 Ranch upon request. Puppies can fly in-cabin by yourself/friend/family or a flight nanny. We make 1 trip per litter to Colorado (Denver International Airport or Longmont area). This is a 3 hr trip one way for us so if you cannot schedule for this date there *may be* a \$50 fee for meeting you in Colorado later and dependent on availability.

4) No purchase shall be complete unless and until both purchaser and breeder sign purchase contract.
Balance is to be paid in cash or cashier's check.

5) The breeder reserves the right to decline to sell a puppy to purchaser for any reason. Unless misrepresentations have been made by purchaser the holding fee will be refunded (see #6)

6) The holding fee will not be refunded unless breeder chooses to do so. The deposit *may* be refunded if breeder cannot get you a matched puppy (on personality) from the litter(s) chosen above or it can be carried over to a later litter. *This holding fee can be forwarded for up to 2 years as long as breeder is still breeding at that time.*

7) We will register all pups with AKC as Miniature American Shepherds and register your Microchip – you will need to write a separate check (or bring cash) for \$30.00 for that at pickup. We will name the puppy for registration papers if you do not send us a name within 1 to 2 weeks of pick-up.

8) Health guarantees are listed in purchase contract. For the safety of the pups we give a Parvo shot around 7 3/4 weeks and Distemper within 2-3 days of that – No 5 way vaccinations are given at this young age (unless requested prior).

Purchaser: 1) Understands the adult height of puppy cannot be guaranteed. Some of the puppies from these litters may fall into the lower size of a Mini (13-15”) or the lower size of a Standard Australian Shepherd (18-19”) as an adult and agrees to keep puppy whether it’s under or over the Mini size.

2) Purchaser agrees to fulfill contract whether purchasing a pet/companion or a co-own puppy or a breeding puppy (contracts vary some).
